

Guardian Assignment –  
Elimination

Name: \_\_\_\_\_

Instructions: In this assignment you will be teaching a parent/guardian how to solve a system of equations using the elimination method. You will need to walk your parent/guardian through the steps as they solve the system of equations showing all work. Due 11/22/17

$$-4x - 15y = -17$$

$$-x + 5y = -13$$

\_\_\_\_\_ taught me how to solve a system of equations using the elimination method.
